

LA   
Beautiful

THE NATIONWIDE ANTI-AGEING TREATMENT EXPERTS

# MAKING THE UK A WHOLE LOT MORE LA BEAUTIFUL

**Anti-Ageing experts LA Beautiful are looking for exclusive salons, clinics and therapists who would like to introduce some of the latest non-surgical results driven treatments to their existing treatment menu, without any investment or outlay.**

LA Beautiful are offering limited real and rewarding revenue opportunities to salon, clinic and spa owners nationwide with their unique fast growing 'We Treat at Yours' programmes.

LA Beautiful want to share the love and to share the youth around the UK without the demand for salons to purchase expensive equipment. With the We Treat at Yours programme LA Beautiful and their team of qualified therapists are on hand to come to yours, treat your clientele and leave you with happy customers and extra revenue to boot.

Not only do we provide devices, the therapist, the consumables but we also provide local marketing support and new patients.

We offer your clients a number of treatments using our own state of the art (RF) Radio Frequency Thermal and Fractional anti-ageing devices. From the collagen boosting LA Beautiful Red Carpet facials aimed at 20/30 somethings to the real age reversal powers of the LA Beautiful Restore Facials for the 40 plus, there is a treatment for everyone.

There are also a range of targeted 'Mini Treatments' aimed at the eye and lip areas where thinning skin makes it much more prone to ageing skin. Ask your local salon for the LA Beautiful Lip Lift which comes with an award winning Luscious Lip® treatment for you to take away or the LA Beautiful Youthful Eyes treatment with an at home nourishing mask.

Already established with a salon partner network in the Midlands, LA Beautiful are now expanding across the UK and looking for Regional Therapists and Clinic/Salon/Spa partners.

## WHY YOU WOULD WANT TO PARTNER WITH LA BEAUTIFUL?

1

Have you considered expanding your existing treatment menu in order to offer and achieve better treatment results for your clients?

2

You may have appointed or still do offer injectable procedures through a visiting lone practitioner, but feel your clients would benefit from the need of more natural treatment solutions?

3

Advanced Non-surgical aesthetic treatments through the latest technology undoubtedly represents a premium growth area within our industry and no salon/spa/clinic should allow themselves to be left behind.

4

LA Beautiful wants to make these treatments available to the many and not just the few. We will only appoint establishments which fulfill our high standard criteria.

5

We have a very profitable opportunity for those who would like to be a part of our exclusive partnership programme. An opportunity not to be missed!

## LA FACIAL

In just one hour with our gentle, completely non-invasive treatment we can tighten those wrinkles and lift loose skin, restoring the natural beauty of your face.

## LA HAND LIFT

The secret of a more youthful look is literally in your hands! As one of the first areas to show signs of aging due to their continual use and exposure there has been a growing demand for our hand treatments.

## LA TUMMY TIGHTEN

For many of us the LA Tummy Tighten treatment would be a most welcome solution for this problematic area. With minimal recovery time skin texture and area become tighter and smoother - it works!

## LA TRICEP TONE

No need to hide away those arms. Now you can pull those favourite clothes back out of the closet and banish those dreaded "bingo wings" with a 100% safe and non-invasive treatment.

## LA DÉCOLLETAGE

The décolletage is deemed as one of the killer signs of ageing for most women. From your neck and the top of your dress can be the largest zone of exposed skin and it's perfect to display those favourite pieces of jewellery, so naturally this area has become increasingly more popular for treatment.

## MINI TREATMENTS

### LA Eye lift

A non-surgical eye lift treatment in just 20 minutes! Using the same great techniques from the LA Facial in a focused treatment for the eye and brow area. Firstly the fractional radio frequency (RF) is used to soften lines around the eyes. Then after being cooled, thermal RF will sculpt and lift the area. This works wonders for any lax skin, dark circles and puffiness. To finish the treatment a cooling and rejuvenating mask will be applied.

### LA Lip Plumper

This quick, but effective lip treatment focuses around the whole of the mouth area reducing fine lines and plumping where required. Once again, the same great processes are used as in the LA Facial combining the radio frequencies, so we achieve fabulous results. All this is finished off with the exclusive to LA Beautiful Luscious Lips® product for that Perfect Pout – all in just 20 minutes!
